Upgrades Made Easy
Convert your old AquaLink, Ji Series, Polaris® EOS®/SOL, or Compool® controls to the latest AquaLink Technology.

Converting is simple and easy—no household rewiring is required. Existing power center, wires, cables and valve actuators do not need to be replaced.

### FEATURES
- Simpler programming and control of filter pump, heater, solar and auxiliary circuits
- For kits that include iAquaLink, web-connected devices* are used to control the pool, using the free iAquaLink apps
- For all AquaLink RS based systems, additional optional user interfaces may be added
- AquaLink PDA based system (PDACONVJ) includes an AquaLink wireless remote for programming and control
- Includes all necessary sheet metal parts and required labels
- Built-In memory retains programming during extended power outages—no batteries required
- Automatic equipment safety circuits and freeze protection built-in
